

Welcome

Thank you for joining us at the pre-application open house for 1445 & 1455 West Georgia Street.

This unique and prominent site in Vancouver's 'Triangle West' neighborhood has been identified by the City for consideration as a Higher Building site, providing a western Landmark Gateway to downtown Vancouver.

The first step, before embarking on a rezoning application, is to introduce the design ideas and seek your feedback at this early stage in the pre-application process.

A Landmark Gateway Site

The concept is to create a slender, tapered form, tailored to this unique triangular, flatiron site, to announce the western Landmark Gateway to downtown Vancouver.
